Docket No. 98N-1265 APR 21 AIO 29
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

It is only because a compounding pharmacy is available to create a hormone prescription that minimizes the kind of estrogen that creates a risk of breast cancer that I am able to alleviate symptoms of menopause without feeling I am putting myself at risk for more serious ailments. It would be a great injustice to limit their ability to be available to out of state consumers.
